Algebra Magic
Square Students
are presented
with a 3 by 3
grid and a
series of cards
each containing
an algebraic
statement.

Students are
required to
place the cards

Acces PDF Magic Square

Solutions
on the grid in such a fashion that each row, each column and each diagonal add to give the magic 'number' of $12a + 15b$. Students are then challenged to make up their own puzzle.

Acces PDF Magic Square Square | STEM

Step 1: The magic sum is 15
By definition, every row, column, and diagonal has the same sum M . Thus each of first row, second row, and third row has a sum of M . So the first 3 rows sum to $3M$.

The 4 x 4 Magic Square to the left is the "basic" 4 x 4 Magic Square. It uses the numbers 1 to 16 inclusive, and

Access PDF Magic Square

its "Magic

Total" is 34, as predicted by the formula shown on another page.

There are exactly 880 4 x 4 Magic Squares that can be created.

*4 x 4 Magic
Squares - Mark
Farrar*

Acces PDF Magic Square

Solutions
A popular mathematical stunt is to create a “magic square”. This is a grid, most commonly 3×3 or 4×4 , filled with numbers. The numbers in every row add up to the same number. Here is an example:
