Ni 9237 User Manual

This user guide describes how to use the National Instruments USB-9237 and lists the device specifications. The NI USB-9237 provides a USB interface for four channels of 24-bit half/full-bridge analog input.

NI USB-9237 User Guide and Specifications - National...

The NI 9237 can perform offset/null as well as shunt calibration and remote sense, making the module the best choice for strain and bridge measurements. The NI 9944 and NI 9945 are accessories for use with quarter-bridge sensors. These accessories have a female RJ50 connector on one end and screw terminals on the other end.
